no desirable yes Other requirements: *Must be enrolled as student during the entire period of internship.*WORK OFFERED

## Kind of work:

*We are looking for interested international participants to work with us here in Ouro Preto and at UFOP with ethnomathematics and mathematics education. We have developed a math trail and we are working with the Circo da Gente (People's Circus) where we are connecting local children in Ouro Preto to mathematics, culture and language, with hopes that they will be encouraged to continue in school and eventually to study at UFOP. International participants are sought to bring new ideas with technology, mathematics education, and long-distance learning to work with us in local communities, Study Centers of UFOP and schools and field education sites such as quilombolas, artisans. In these practices we are looking for new and innovative ideas in both languages and mathematics education.*
