

Call for papers

BaSoTI Young Scientists Conference on Privacy and Security 23 and 24 July 2017, Klaipeda, Lithuania

—

Track on Digital Forensics

More and more data is stored in digital form on a wide variety of devices. In many situations a forensic analysis has to be performed to gain or regain access to data for different reasons. The conference aims on presenting new technologies, exchanging experiences and fostering a discussion about forensic technologies, privacy issues versus forensics, and the social impact of forensics.

The conference welcomes papers on the following (but not limited to) research topics:

- Forensics of mobile devices
- Forensics of home electronics
- Forensics of car electronics
- Forensics of home automation systems
- Forensics on social media
- Forensics on network stored profiles
- Location tracking
- Live network forensics
- Legal issues of forensics
- Anti-forensics and privacy enhancing technologies
- Data Mining in the context of digital forensics

Submission guidelines:

- Extended abstracts or full papers not exceeding 10 pages must be submitted.
- All submissions will be reviewed by at least 2 reviewers.
- Researchers are encouraged to submit their work electronically via <https://basoti.dennisboldt.de>.

Important dates:

Submission ends: 01/06/2017

Notification: 01/07/2017

Conference: 23-24/07/2017

Camera ready submission / Post conference version due: 01/09/2017

Location:

Klaipeda University
Faculty of Marine Technology and Natural Sciences
Herkaus Manto g. 84, LT-92294 Klaipėda
Lithuania
